My dear Mrs. G.,

There is some further difficulty about the question of the title - with you therefore very kindly defer making any arrangements till I see, and talk to mother on with you again this evening?

Yours sincerely,
M. Viswanatha

There is a time I must speak on account of a combination of difficulties &

I am much obliged to you for bringing to me the other drafts for the Committee's speech - As this is perhaps the most important audience with the address, I am anxious to bring it to the whole of India, I am anxious that it should be a perfect speech.

I enclose you kind letter enclosing a copy of the programme of the High School to be made -

My dear Mrs. G.,
